ultralife started in 2017 as a locally owned and operated tiny drive thru cafe on highway 101. We experimented with gluten free & vegan choices & it took off. Our baby business is still busy as ever - a Newport local's secret spot.

In 2019, ultralife acquired the sit down location at the tourist favorite Nye Beach turnaround - and we couldn't be more excited about the cool ocean view & friendly neighbors. Enjoy a treat - the atmosphere is warm & welcoming.

ultralife was created to offer hearty & healthy food & drink options for people like us - always on the go but still craving nutrition & quality treats.

We strive to offer vegan, gluten free, dairy free & keto choices on the daily - our menu shifts with the seasons so watch for specials & changes on social media.

ultralife is a small (yet growing) business, and behind every small business is a community of friends, family, employees, & fans. Thank you for being an ultralife fan.

where there is love ~ there is life.
